

## Dômes Pharma Partners with ISVO

**Salt Lake City - January 29th, 2026** - Domes Pharma, a global leader in veterinary ophthalmology solutions, and the International Society of Veterinary Ophthalmology (ISVO) are delighted to announce a new sponsorship arrangement to support the Dômes Pharma-ISVO Travel Scholarship.

Since its inception in 2013, the travel scholarship has supported more than 20 up-and-coming ophthalmologists from 4 continents to attend centers of excellence on 3 continents. **Dômes Pharma** will now continue this long tradition and sponsor three travel scholarships in 2026 each valued at \$2500 USD. This sponsorship has changed the career trajectory for prior scholarship winners, and you can read some of their stories [here](#). Thanks to the generous sponsorship of the American College of Veterinary Ophthalmologists, each awardee will also receive a complimentary one-year subscription to the journal *Veterinary Ophthalmology*.

The scholarship is open to any veterinarian who is not currently enrolled in an official ophthalmology residency training program and who is a regular or institutional member of the ISVO.

More information is available [here](#).

“As a global company, Dômes Pharma is proud to partner with the International Society of Veterinary Ophthalmology (ISVO) to fund three travel scholarships that promote continued education in veterinary ophthalmology,” said Anne Moulin, President of Dômes Pharma, Inc. “The ISVO brings together veterinary professionals from across the globe, creating opportunities for learning and collaboration that strengthen the field internationally. Supporting these scholarships reflects our commitment to advancing veterinary ophthalmology and fostering connections that drive innovation.”

## About Dômes Pharma

Dômes Pharma, an independent family-owned group, a pioneer in animal health, has been developing, manufacturing and marketing solutions for the health and well-being of pets since 1947. Established in Auvergne in central France, the region of volcanoes and its domes from which it takes its name, in 2016 the Group began its international expansion by opening subsidiaries in the UK, Germany, Spain and the USA. Dômes Pharma, Inc., based in Salt Lake City (Utah), develops and manufactures ophthalmology products, based on an exclusive patented technology that potentiates the action of Hyaluronic acid on the eye of animals.

## About ISVO

The International Society of Veterinary Ophthalmology (ISVO) serves as a bridge between many different local and national veterinary ophthalmology organizations thereby promoting the worldwide exchange of information relating to the eye and vision in both the domestic and native animal species. More information can be found at [isvo.org](http://isvo.org).
